HOW IS MY BILL CALCULATED?

Both water and sewage bills are based on your **water consumption**, that is, the amount of water used from one reading period to another. You are allowed to use up to 250 cubic feet in one month to receive a minimum bill. Usages over the minimum allowance will be calculated as shown on the table below. **Any residence that uses zero to 250 cubic feet in one month will result in a \$54.00 minimum charge for water and sewage.** An additional sanitation and flood mitigation fee will be included for all single-family residents per rate chart below (*Borough Charges*).
